ANCHORS

ANCHOR BOLTS | CONCRETE ANCHORS | FAÇADE ANCHORS
GENERAL HARDWARE & TIES | GEOTECHNICAL ANCHORS
MASONRY ANCHORS | POST-TENSIONING
REINFORCING ANCHORS | UTILITY ANCHORS

Adhesives Technology Corporation

Phone: 800-892-1880

Email: atcinfo@atcepoxy.com

Web: www.atcepoxy.com

Product: ULTRABOND®, HS-1CC, High Strength Anchoring Epoxy

Description: A leading manufacturer of construction and industry related adhesives in epoxies, urethanes, acrylics, ester blends, and polyureas. ULTRABOND, CRACKBOND®, and MIRACLE BOND® are some of the most recognized products in North America. Code compliant ULTRABOND HS-1CC is the world's strongest anchoring epoxy.

Bluebeam, Inc.

Phone: 866-496-2140

Email: mwilliams@bluebeam.com

Web: www.bluebeam.com

Product: Bluebeam Revu

Description: Innovative, cloud-based PDF editing, markup and collaboration solutions that set the standard for workflow efficiency for +1 million design and construction professionals worldwide. Revu delivers enhanced PDF-based takeoff and workflow automation tools that span the entire project life cycle and give your organization the competitive edge.

Chicago Clamp Company

Phone: 708-343-8311

Email: info@chicagoclampcompany.com

Web: <https://chicagoclampcompany.com>

Product: Upper Deck Fall Protection Anchorage

Description: Using the corrugations in the standard roof deck, these headers slide into place and clamp to the top chord of the bar joist or wide flange supports. Together, the headers and clamps easily form an anchor point for fall protection systems.

Dlubal Software, Inc.

Phone: 267-702-2815

Email: info-us@dlubal.com

Web: www.dlubal.com

Product: RFEM

Description: Effectively analyze complex connection layouts utilizing surface and solid elements, automatic finite-element meshing, mesh refinements, and surface intersection capabilities. Perform required ultimate and serviceability limit state designs of reinforced concrete according to ACI and other international standards. Accurately represent soil-structure interaction with multiple soil layers.

ENERCALC, Inc.

Phone: 800-424-2252

Email: info@enercalc.com

Web: www.enercalc.com

Product: Structural Engineering Library

Description: Design of anchors and anchor bolts typically requires a thorough development of applied loads, and may require analysis of full structures or connected components. The Structural Engineering Library can assist in determining those loads and performing those analyses.

Gripple Inc.

Phone: 630-406-0600

Email: grippleinc@gripple.com

Web: www.gripple.com

Product: New Spider Concrete Insert

Description: The next-generation Spider Concrete Insert is available for wood or metal deck, and has a versatile design that allows it to be used with either Gripple Cable Hangers or various sizes of threaded rod to suspend services. This allows one concrete insert for all requirements.

Heckmann Building Products

Phone: 708-865-2403

Email: paul@heckmannanchors.com

Web: www.heckmannanchors.com

Product: Masonry Anchors and Ties

Description: Heckmann's has been manufacturing masonry anchors for 96 years, since 1923. The Pos-I-Tie® Brick Veneer Anchoring system was introduced in the mid 1980s and was the first barrel screw veneer anchor in the industry. Check out our website for a full line of anchoring systems and stone anchors.

IES, Inc.

Phone: 800-707-0816

Email: info@iesweb.com

Web: www.iesweb.com

Product: VACconnect

Description: Design steel base plates and get full anchorage calculations per ACI. With our Transparent Reporting™ feature, see hand-calculation reports that clearly document your design. Free-trial is available in 2 minutes, with no obligation.

MKT Fastening, LLC

Phone: 800-336-1640

Email: charley@mktfastening.com

Web: mktfastening.com

Product: Sup-R-Stud V-TZ

Description: A wedge anchor designed for use in cracked or uncracked concrete. Each wedge anchor is marked with lines to denote minimum and maximum embedment of the fasteners. The Sup-R-Stud V-TZ holds ICC-ES report #ESR 4278.

Simpson Strong-Tie®

Phone: 800-925-5099

Email: web@strongtie.com

Web: www.strongtie.com

Product: SET-3G™ High-Strength

Anchoring Adhesive

Description: SET 3G is the latest innovation in epoxy adhesives. The high-strength anchoring adhesive can be installed in extreme concrete temperatures from 40°F to 100°F, as well as in dry or water-filled holes in concrete. Provides the high bond strength values needed for a variety of adhesive anchoring applications.

Product: Titen HD® Heavy-Duty Screw Anchor

Description: The Titen HD screw anchor is now available in Type 304 and 316 stainless steel. Type 316 is the optimal choice for applications in corrosive environments such as near chemicals or salt water. A cost-effective solution for less extreme applications, including in wet, moist or damp environments.

Trimble

Phone: 678-737-7379

Email: jodi.hendrixson@trimble.com

Web: www.tekla.com

Product: Tekla Tedds

Description: Automating your everyday structural designs, the Tekla Tedds' library includes anchor bolt design per ACI 318 Appendix D. The calculation includes comprehensive checks for tensile and shear failure of anchors, and is available as part of a free trial by visiting the website.

Product: Tekla Structural Designer

Description: With Tekla Structural Designer, engineers have the power to analyze and design multi-material buildings efficiently and cost effectively. Physical, information-rich models contain all the intelligence needed to fully automate design and document projects, including end-force reactions communicated with two-way BIM integration, and comprehensive reports and drawings.

Product: Tekla Structures

Description: An Open BIM modeling software that can model all types of anchors required to create a 100% constructible 3-D model. Anchors can be created inside the software or imported directly from vendors that provide 3-D CAD files of their products.

Wej-It Fastening Systems

Phone: 203-857-2200

Email: info@wejit.com

Web: www.wejit.com

Product: Wej-It® High Performance Anchors

Description: Founded in 1952, Wej-it invented the Original Wej-It Wedge and has continually expanded product offerings to include a complete range of high-quality and innovative light to heavy-duty mechanical and adhesive anchoring products.
